

Email Smart

don't **FART** around.

Friends second, students first.

Keep all communication focused on the assignment. Stay on top of your work, deadlines, and expectations before any non-educational social interaction. Maintaining clear, academic communication keeps everyone on track. Remember, group work is still school work.

Let's stay on topic. You do more research on the industrial revolution and I'll write the part on the economic consequences of rain 

Accuracy & attribute properly.

Make sure your information is accurate and correct before sending or sharing it. Spreading misinformation is wrong and will get you a poor grade. You should always give credit when sharing ideas, sources, or files as this builds trust, avoids confusion, and prevents plagiarism.

 Liar Liar Pants on fire

I didn't copy and paste this, I just type really really fast. 

  Student of truth
12:07 PM Today
This is not your work and "fakestuff.net" isn't a credible source. Plz apply yourself and do proper work or else I will be messaging the course instructor about this 

Responsibility to yourself.

Check your email regularly, respond on time, and follow through on what you say you'll do. Be accountable for your own work. Don't rely on others to carry you. Avoid cheating and misusing AI. Use modern tools to support your learning, not replace it. Being honest and reliable makes you a stronger collaborator, teammate, and person.

   
 my current physical or mental state is preventing me from trying :(

I cannot explain my work here as instead of reading and comprehending the material for myself, I fed it into a large-language generative AI model that provided me with paragraphs posted here. 

SUNCAT SAYS...

THE USE OF AI TOOLS, IN WHOLE OR IN PART, IS SOLELY AT THE DISCRETION OF THE INSTRUCTOR.

AI USE REFERS TO THE EMPLOYMENT OF ARTIFICIAL INTELLIGENCE TECHNOLOGIES AND TOOLS BY STUDENTS. THIS INCLUDES, BUT IS NOT LIMITED TO, GENERATIVE ARTIFICIAL INTELLIGENCE (SUCH AS CHATGPT OR IMAGE-GENERATORS), MACHINE LEARNING ALGORITHMS, NATURAL LANGUAGE PROCESSING TOOLS, AI-BASED PROBLEM-SOLVING SOFTWARE, AND AUTOMATED CONTENT GENERATION PLATFORMS (SUCH AS ESSAY-WRITING TOOLS OR CODING ASSISTANTS).

IF AI USE IS PERMITTED IN A COURSE, IT MUST BE ACKNOWLEDGED/CITED AS WOULD ANY OTHER SOURCE, AND NOT PRESENTED AS ORIGINAL WORK.

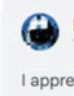

-CNM ACADEMIC INTEGRITY POLICY

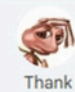

Treat others the way you want to be treated.

Communicate with respect, clarity, and patience. The tone you use matters more than you think. Avoid sarcasm, be constructive with feedback, and stay professional even when you're stressed or tired. Good communication builds trust, reduces conflict, and makes group work smoother for everyone. Remember to always think before you send.

At the end of the day, how you communicate is just as important as the work we produce.

I appreciate your honesty, but your education and Academic integrity matters. we're all responsible for making sure our work is actually ours. More importantly, we need to understand the material, not just submit answers. Can you go back and work through it so you can explain it? That way we're all learning and not putting the project at risk. 

  my current physical or mental state is preventing me from trying :(
3:36 PM Today
Thank you for your kind words. I now see my error and I want to deeply apologize for my initial approach to this assignment. Your feedback was helpful, and I appreciate the way you addressed the issue. you have motivated me to go back, review the material, and complete the work properly on my own so I can understand it and explain it properly. I will make sure my contributions reflect my own learning from now on. Your input is truly important and it has made a difference in my life. Thank you my friend.
